170+ programmes annually

Open enrolment and customized executive programmes

5,000+ executives trained every year

Across industries, functions, and leadership levels

15,000+ global EEP alumni network

Senior leaders across corporations, startups, and public sector organizations

Executive Education at IIM Bangalore equips professionals with the insights, capabilities, and professional networks to lead organizations in an era of transformation

Message from the Chairperson, Executive Education Programmes

Dear Professionals,

In a world defined by relentless change, businesses are being reimagined and leadership roles are getting reconfigured at a lightening pace. Today's leaders are not those who simply react; but they are those who anticipate, inspire, and transform. They are the ones who choose to invest in themselves today. Executive education at IIM Bangalore is built exactly for these moments.

IIM Bangalore Executive Education programmes are designed with great thought and conviction. They bring together the rigour of academic excellence and the relevance of real-world practice, along with cutting edge research, thereby creating a transformative experience for every participant. Our programmes are not designed to simply inform; they are designed to shift perspectives, create out-of-box thinking, and equip you to lead with clarity and confidence in an increasingly complex world.

What sets our programmes apart is not just the curriculum, it is the community. When accomplished leaders from diverse industries and geographies come together in our classrooms, the exchange of perspectives becomes as powerful as any lecture. You will leave not just with new frameworks and insights, a sharper strategic lens, a great network of peers, but also the courage to challenge the status quo in your organizations.

Whether you are looking to sharpen your (and your team's) strategic thinking, lead your organisation through transformation, or simply reclaim the edge that sets great leaders apart — we have designed this portfolio with you in mind.

I invite you to explore the opportunities with Indian Institute of Management Bangalore Executive Education. Your next chapter of growth begins here.

Prof Padmini Srinivasan

Chairperson, Executive Education Programmes

Short Duration Certificate Programmes

Short Duration Programmes typically range from 3-5 days on a specialized topic and are targeted at senior or top management professionals. The SDPs are designed by the IIMB Faculty based on the expertise they have gained through market research and consultancy.

All SDP open programmes are residential, although some Bangalore-based participants can opt for non-residential seats which will cost less than a residential seat. The cost of non-residential seats can be obtained on request from the EEP team.

For Short Duration Programmes:

- +91 - 80 - 2699 3475 / 2699 3371
- +91 - 89519 74078 / 89512 81609

SDP Participant's Speak

“ Programme: Entrepreneurial Leadership in Organizations

Would recommend it to all entrepreneurs

It was a wonderful power packed programme, best part was the faculty, stay at IIMB campus and the mingling connections. I was able to further collaborate on projects with the alumni of this programme. Would recommend it to all entrepreneurs.

Shriyans Bhandari Director, ”
Greensole & Heritage Girls School

Programme: Generative AI and Agentic AI with Business Applications

Provided a clear and structured framework to assess the organization's readiness for AI adoption

“The Executive Education Programme on Artificial Intelligence at IIM Bangalore was a very relevant and useful learning experience.

For the manufacturing organization that I lead, this programme provided a clear and structured framework to assess the organization's readiness for AI adoption, identifying capability gaps, and determine to what extent AI can be realistically applied across the organisation. It has helped in evaluating data maturity, technology infrastructure, and people capabilities before embarking on AI initiatives.

Importantly, the learnings have also helped to strengthen our Global Capability Center (GCC) by clarifying roles, assessing relevant AI and analytics skills, and mentoring and guiding young talents. I would strongly recommend it to senior leaders leading AI strategy and capability building.”

Deepak Baliga Managing Director, AVK Valves India Pvt. Ltd., Ministry of Finance, New Delhi

“ Programme: Private Equity and Capital Market Financing

Highly recommended!

The Private Equity and Capital Market Financing executive programme at IIM Bangalore was a highly valuable experience. It united diverse professionals facilitating excellent peer learning and a lasting network. Professors Ashok Thampy and Pratap Giri generously shared their deep expertise through insightful lectures, practical case studies, and engaging discussions. The in-depth coverage of India's mature PE ecosystem broadened my perspective significantly and equipped me with practical tools to adopt in Nepal's evolving PE landscape.

Kapil Pathak Incharge-Research & Equity Investment, Kathmandu, NMB Capital Limited ”

Programme: Designing and Monetising Loyalty Programmes

Encouraged collaborative thinking, real-time application of concepts, and problem-solving

“The programme was so insightful and highly professionally valuable. The programme provided a thoughtful idea for developing loyalty beyond rewards to drive customer retention, data-led-decision making and revenue growth. A particularly enriching aspect was the hands-on project work during the two days, which encouraged collaborative thinking, real-time application of concepts, and problem-solving using practical business scenarios. The case discussions and project-based learning around customer lifetime value, segmentation, and monetisation helped me directly connect theory with real-world challenges, strengthening my ability to align loyalty initiatives with organizational objectives in my professional role. Apart from the above learning, experience earned through those days were cherishing and enriching to my professional career.”

Arun M Senior Manager-Loyalty Programs, Retail HQ, Bharat Petroleum Corporation Limited

“ Programme: ESG, Climate Change, and Building Future Ready Organizations

Very inspired after the course!

The course content was superb. The professors experience and the way they imparted knowledge was awesome. Various live case studies were presented that gave us insights on how to deal with ESG and Climate related areas. Very inspired after the course that helps me to implement in my current workspace. If you are in ESG space, this course is very important to take you to another level.

Sriram Iyengar VP - Products and Operations, Meta Materials Circular Markets Private Limited ”

Custom Programmes

IIMB's custom programmes are tailored solutions designed specifically for executives from a single organisation or a consortium. The programmes are meticulously crafted keeping in-line with the specific requirements of the stakeholders. They offer a unique opportunity for open and transparent discussions enabling deeper learning while also addressing organization-specific challenges and opportunities and context.

Customised solutions for unique challenges

We design and deliver bespoke executive education programmes for a wide spectrum of organizations, including Government bodies, Public Sector Enterprises, Private sector firms, and Multinational Corporations.

Our portfolio spans a diverse range of industry sectors, including Healthcare, Manufacturing, Information Technology and Technology Services, Financial Services and Insurance, Energy and Utilities, Consumer Goods, Retail, Telecom and Electronics, Consulting and Professional Services, as well as Education and Training. This breadth enables us to bring cross-sectoral insights and contextual relevance to every engagement.

Every organization has its distinct set of challenges. We collaborate closely with our clients to understand their specific needs and tailor solutions to address them.

Target Audience

Our custom programmes are designed and delivered across industry sectors and management levels, including C-Suite, senior and middle levels of leadership.

Client-centric methodology

Our approach begins with a comprehensive Learning Needs Analysis. We engage with key stakeholders and participants through diagnostic studies to craft a detailed programme structure.

Pedagogy

The tailored programmes integrate various components, including:

- Conceptual frameworks
- Business cases
- Action Learning Projects (ALPs)
- Assignments
- Group exercises
- Role-plays
- Business simulations
- Industry connects
- Social events

Each element is carefully structured to enhance the learning experience and drive insightful outcomes.

On successful completion of the programme, participants are awarded a certificate of participation by IIMB.

Programme Duration and Format

Our custom programmes offer flexible options to suit the organization's requirements.

- Varied durations, starting from a minimum of 3 days
- On-Campus, Live Online, or Hybrid (combination of both) formats

- General Management

Clients Speak

“Our partnership with IIMB has been instrumental in driving our leadership development programmes. Our collaborative efforts helped us to successfully build a robust talent and succession pipeline for our senior managers.

We are delighted with IIMB’s live online interventions, which have been expertly curated and delivered. The team’s dedication to engaging participants and ensuring relevant programme content has been impressive.”

Anjali Raghuvanshi

Chief People Officer, Randstad India

A partnership to empower leaders at Tata Motors

“The customized General Management Programme, in partnership with IIM Bangalore, aims to help our younger talent pool develop a good understanding of the core functional areas of management in their journey to transition from an individual contributor to a people/business manager. Delivered by expert faculty and comprising a blend of lectures, classroom discussions, group exercises and case studies, the program helps to develop their skills and knowledge to excel in their current & emerging roles. With close attention to ensuring the integration of learning to ongoing projects, the program facilitates the application of learning and has been a flagship element in our development landscape for our talent pool. We look forward to continued collaboration in the future.”

Scherezade Bahmani

Deputy General Manager - Learning & Development, Tata Motors

Leadership Development Programme on Innovation Strategy MBRDI:

Excited to share that we’ve successfully completed the Leadership Development Programme on Innovation Strategy at Indian Institute of Management Bangalore – specially curated by IIMB for the IP & Innovation Management Team at Mercedes-Benz Research and Development India. The programme went beyond frameworks and concepts, enabling real-time application through case discussions, action learning projects, and mentorship from faculty at Indian Institute of Management Bangalore. Such initiatives are invaluable for innovation teams, helping us adopt structured approaches and gain outside-in perspectives to address business challenges more effectively.

Balwant Rawat

Head of IP at Mercedes-Benz R&D India

Challenged traditional hierarchical approaches and fostered inclusive leadership for NNE India

At NNE India, leadership is not defined by hierarchy alone—it is defined by influence, empathy, and the ability to navigate complexity with purpose. That’s why The Catalyst Program, a thoughtfully

designed three-day leadership development journey was created for all managers across NNE India and delivered on campus by IIM Bangalore (IIMB). The programme combined academic rigor with real-world relevance, equipping participants with insights on influence-based leadership, data-driven decision making, and navigating ambiguity. It challenged traditional hierarchical approaches and fostered inclusive leadership, stronger decision making under uncertainty, and a coaching mindset.

Sameer Taneja

General Manager, Novo Nordisk Engineering India Ltd.

Decision Making to Leading High Performance Organizations for Computacenter

The Computacenter LEAP program delivered as part of MDP from IIM Bangalore is beyond a leadership development program to address management and leadership development for a rapidly growing organization as this is very key to sustain our differentiators like the growth, culture and co-creation mentality. This has delivered outcomes for us which has taken the team through the journey of self-awareness, business strategy, finance, AI, GCC business dynamics etc. which is very key to blend strategic thinking with operational leadership for the middle management so that we continue to go through the maturity curve as an organization with pace without losing the differentiators what has helped us so far. Thank you again for a fantastic continued partnership.

Sambit Dash

Country General Manager and Director, Computacenter India Pvt Limited

Enhancing public sector capacity for Ministry of Finance

“The five-day training programme on Capital Structuring Decisions and Project Finance was structured and curated to address the challenges of government projects. The pedagogy effectively blended theory and real-life experiences, providing participants with valuable insights and practical solutions.

The extensive training programme helped participants overcome their apprehensions and gain a deeper insight into resolving project implementation challenges.

We appreciate IIMB’s expertise and look forward to conducting more such programmes to enhance public capacities.”

Anand Kumar Pal

Adviser, Department of Economic Affairs, Ministry of Finance, New Delhi

Our International Clients Speak

China Entrepreneurial Leadership Camp (CEIBS)

"Thank you for hosting the first leg of our India module. The students thoroughly enjoyed their stay and were impressed with the exceptional quality of the speakers and facilities. We are eagerly awaiting our next visit."

Wendy Xiao 肖雯雯 Programme Coordinator,
Executive Education Dept. China Europe International Business School (CEIBS)

University of Sydney

"IIMB provided our students an exceptional experience. The faculty was outstanding and their willingness to go that extra mile to offer extra time to engage with our students was greatly appreciated.

The NSRCEL team also demonstrated remarkable dedication to assist our students with their group projects.

Thank you for a wonderful collaboration. I look forward to working with you and IIMB again soon."

Lucy Commis Program Coordinator, Executive MBA, Management Education
The University of Sydney Business School, Australia
